PROFILE SUMMARY

A motivated Third-Year Software Engineering Undergraduate at the Java Institute for Advanced Technology. Possesses a strong foundation in Full-stack development and a keen interest in applied research. I am seeking an impactful internship to leverage my technical skills in building innovative, scalable solutions while contributing to solving complex real-world challenges.

TECHNICAL SKILL

- **Programming Languages:** Java, PHP, JavaScript, TypeScript, SQL, HTML, CSS, XML, C++.
- **Frameworks & Libraries:** React Native, Hibernate (ORM), Bootstrap, Tailwind CSS, NativeWind.
- **Tools & Environments:** VS Code, NetBeans, Android Studio, GitHub, Git, Arduino IDE.
- **Databases & Management:** MySQL, HeidiSQL, MySQL Workbench, XAMPP.
- **Networking & APIs:** REST APIs, WebSockets, Axios, Fetch API, AJAX, SJAX.
- **Methodologies:** Agile (Scrum), Waterfall Model.
- **Development Utilities:** ngrok, Postman

PROJECTS

Book Club – Online Marketplace for Books

- **Technologies:** PHP, MySQL, HTML5, CSS3, JavaScript, Bootstrap, AJAX.
- **Description:** Developed a comprehensive, responsive e-commerce platform allowing users to both buy and sell books, creating a community-driven marketplace.

Burger House – Point-of-Sale (POS) & Inventory System

- **Technologies:** Java (Swing), MySQL, JDBC, JasperReports, NetBeans.
- **Description:** Developed a robust desktop application for a restaurant to streamline sales processing and automate inventory tracking.

CBC Banking System – Functional Banking Application (Group Project)

- **Technologies:** Java (Swing), MySQL, JDBC, OOP Principles.
- **Description:** Collaborated with a team to develop a secure desktop banking application to manage core financial transactions and customer records.

Leafy Lane – Organic Food E-Commerce Platform

- **Technologies:** Java EE, Hibernate (ORM), MySQL, JSP/Servlets, Bootstrap, GlassFish 5.0.
- **Description:** Developed a comprehensive enterprise web application for selling and purchasing organic food products, focusing on streamlined data management and scalability.

Zap Chat – Real-time Cross-Platform Messaging Application

- **Technologies:** React Native, Java (Backend), Hibernate (ORM), MySQL, REST APIs, Axios.
- **Description:** Developed a high-performance, cross-platform chat application that enables real-time communication, focusing on seamless data synchronization and a modern user interface.
